Subject: ATSDR Epi Investigation and Confidential/Personal Information at Sirenusa

;
All,

At this point, ATSDR has taken over the epidemiological investigation of the health effects and potential exposures from the incident at Sirenusa.

Please note that names, addresses, phones numbers, medical information, etc., are confidential.

Please provide ATSDR with any information you currently have that will enable the Epi-Aid Team to proceed.

OSC Lucarino is scheduled to meet with the ATSDR team on Tuesday morning to show them the facility and make introductions to condominium management personnel.

Please do not contact potential exposure victims from this point forward.

Thanks

Neil
